SUMMARY

Motivated CSE student with expertise in software development, OOP, and database management. Proficient in Java, Python, C++, and experienced in full-stack development with the MERN stack. Skilled in problem-solving and delivering clean, efficient, and scalable solutions.

EDUCATION

CGC University, Mohali, Punjab

Bachelor of Technology in Computer Science and Engineering

Aug 2022 – May 2026

EXPERIENCE

Emerging Technologies Intern, AI Cloud, (Remote)

June 2024 – Dec 2024

- Developed a smart AI chatbot using cutting-edge technologies in Artificial Intelligence and Cloud Computing.
- Integrated Natural Language Processing (NLP) to understand and respond to user queries in real-time.
- Deployed the chatbot on a cloud platform (e.g., AWS, Google Cloud, or Azure) for scalable and secure access.
- Designed the system architecture using REST APIs and backend services for efficient data flow.

PrernaGati & Technologies Intern

Jan 2026 – Jul 2026

- Developed and maintained responsive web applications using modern frontend and backend technologies.
- Designed and integrated RESTful APIs to support efficient and secure data exchange.
- Collaborated with development teams to deliver high-quality, user-centric digital solutions.
- Optimized application performance and ensured code quality through testing and debugging.

PROJECTS

Invoisen – AI-Powered Invoice Management SaaS | Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, AI API

[Live Link](#)

- Built a full-stack AI-powered invoice management platform with secure user authentication.
- Integrated AI features for invoice generation, client autofill, and tax assistance.
- Developed PDF export, email sharing, invoice history, and a responsive dashboard.

Insure – AI-Powered Insurance Risk Predictor | Python, FastAPI, Streamlit, Scikit-learn, Pandas

[Live Link](#)

- Built an AI-powered platform to predict insurance premium risk categories using a Random Forest model.
- Implemented automated feature engineering, validation, confidence scoring, and probability analysis.
- Developed an interactive dashboard with real-time predictions, risk visualization, and API integration.

TECHNICAL SKILLS

Languages: Java, Python, C++, HTML, CSS, JavaScript

Frameworks/Libraries: React.js, Node.js, Express.js, FastAPI

Database: MongoDB, MySQL, PostgreSQL

Cloud & DevOps Tools: AWS (EC2, S3, Cognito, DDB), Docker, Vercel

Developer Tools: Android Studio, Git, Postman, Figma

Algorithms and Data Structures: Proficient in Java for DSA

ACHIEVEMENTS

- Participated in a national-level tech workshop by BrainOVision, gaining exposure to AI, IoT, and robotics.
- Participated in multiple hackathons and coding events.
- Among the top 10 teams in the Odoo Hackathon 2025.
